YALE WINS FROM HARVARD TODAY

New London, Conn., June 25—Trained to the top pitch of physical perfection, drilled to a fineness in the art of driving a racing shell, the sturdy crews of Yale and Harvard met today for their annual regatta on the Thames river for aquatic supremacy. There will be three races, the 'varsity four, the freshman eight and the 'varsity eight.

For over 20 years each June, John Harvard and Elihu Yale have fought it out on the four mile course from Red Top to the drawbridge and today the contests on the Thames have obtained the same classical standing as the Oxford-Cambridge race in England. The result of weeks of hard training, days of self-denial and hours of constant practice were shown today when these crews got away with the starter's pistol.

11:31—The preliminary "get ready" was sounded from the referee's launch. At 11:33 they were off. Harvard caught the water first. She gained three quarters of a boat length within two minutes of the start. They were rowing a fast race and before a quarter of a mile had passed, open water showed between the boats. Sensational developments in the matter are expected at a nearly date.

IOWA DEMOCRATS

Refuse to Indorse Kansas City Platform—Demand Tariff Revision and Self Government of Colonies--The Ticket and Platform.

Des Moines, Ia., June 25—Governor J. B. Sullivan; Lieutenant Governor, D. B. Butler; Judge of the Supreme Court, John R. Caldwell; Superintendent of Public Instruction, A. R. McCook; Railroad Commissioner, W. S. Porter.

The Democratic State Convention by a vote of 463 9-10 to 354 1-10, refused to adopt a minority report signed by four members of the Committee on Resolutions, adding to the platform report by the seven members constituting the majority of the committee, a plank reaffirming the Democratic national platform of 1900, and by a vote of 628 1-2 to 199 1-2 rejected another minority report adding to the plank demanding government control of railways, a provision that in case such control should not prove effective the National government should acquire ownership of railroads.

All the nominations were made by acclamation, the friends of Judge A. A. Van Wagenen, of Sioux City, having concluded not to present his name for Governor after it became apparent that the convention would not adopt a Government ownership plank which he favored.

J. B. Sullivan, nominee for Governor, has been affiliated with the Bryan wing of the party, but he was acceptable to the Gold Democrats.

State Chairman Jackson called the convention to order at 11 a. m., and named J. H. Quick of Sioux City, as temporary chairman.

When the convention met at 2 two o'clock permanent organization was effected, with D. W. Hamilton of Keokuk county, as Chairman. E. M. Haron of Davenport, presented the report of the Committee on Resolutions and made the only speech in its support.

J. M. Parsons of Rock Rapids, submitted the minority report in favor of its adoption. After the rejection of the report W. H. Robb of Creston, presented the reaffirmation plank. Its adoption was urged by Mr. Robb, G. S. Rhinchart of Newton; former Congressman Walt H. Butler, of Des Moines, and Colonel C. P. Mackey of Segourney.

The following resolutions were adopted:

We, the chosen representatives of the Democratic party in Iowa, in delegate assembled, hereby declare anew our faith in the fundamental principles of the Democratic party, and renew our allegiance thereto.

We find much in the domestic affairs of this nation that ought to be changed.

"The tariff policy originally adopted for the avowed purpose of raising revenue to meet the enormous burdens of the Civil War has been turned to use of individual and class interests until it has become the creator of countless unearned fortunes and the shelter of huge combinations of capital, organized in the form of combines, which are strangling competition in many of our industries, destroying individual effort, crushing ambition largely in every line of industry and already acquiring a power which enables them to distaste in their own interests the prices of labor and raw material and the cost of transportation of finished products.

"We declare our unqualified opposition to the principles of government by injunction.

"We renew our demand for the election of United States Senators by direct vote of the people.

"We are unalterably opposed to the policy of imperialism by this Government, instituted, fostered and maintained by the Republican party. And we demand that our Government shall declare it to be its purpose, and without delay, to adopt such measures as shall give to the people of the Philippine Islands and Porto Rico their inalienable right of self government.

"We condemn the Republican party for its financial policies, which would foist on the country an unstable currency based on uncertain private securities.

"We protest against the plan presented in the Aldrich bill, recently before the United States Senate, by which the money of the nation shall be loaned to capitalists upon the bond and securities of private corporations, as an effort to give value and stability to watered bonds and securities of corporations and combines, many of which are maintaining monopolies in defiance of law and public sentiment.

"We insist that the integrity of the money of the nation be guarded with zealous care and demand that it shall be sufficient in volume to meet the needs of the business interests of the country, and that it shall be safeguarded by careful legislation, so as to prevent the gamblers of Wall street from cornering the money market, thus inflicting untold injury upon the smaller business men, the farmers and the laborers of the land.

"We deplore the corrupt condition of the Government service in the post-office department and demand a thorough investigation of that and other departments by a congressional committee, publicity as to such conditions and punishment of all wrong doers."

AN INGENUOUS SUICIDE.

That was a peculiar case of suicide—a self guillotining. The average suicide shoots or cuts or swallows poison recklessly, frequently botching the job fearfully. But this fellow? Listen: After sharpening the edge of a spade he fastened the implement, blade downward, to the end of a carpenter's bench, which he weighted heavily. He then placed a block of wood under the same end of the bench in such a manner that it could be easily removed, and so let the bench fall, together with the sharpened blade. When these preparations were completed he lay down, placed his neck across a thick piece of wood directly under the spade, knocked away the support and was immediately and completely decapitated.—New York Press.

PETITION

TO SET ASIDE THE WILL OF LATE PETER MURPHY.

Action Commenced by Fred and John Murphy—Other Court House News of the Day.

A petition has been filed in the Common Pleas Court by Fred Murphy and John Murphy against James P. Murphy and others, asking that the last will and testament of the late Peter Murphy be set aside. The plaintiffs allege that the writing is not the valid and last will and testament of Peter Murphy; that at the time he said will was made, Peter Murphy was not of sound mind and was mentally incapacitated from making a will or disposing of his property. The plaintiffs also say that at the time of the death of Peter Murphy he was the owner of a retail grocery and liquor store, and that James P. Murphy had entire control and management of the business, and that immediately after the burial of Peter Murphy, James P. Murphy opened the store and took possession and that he has been conducting the business ever since, converting the proceeds to his own use, and has not made any account or report of the same to the plaintiffs; that he has used and is now using the money of Peter Murphy on deposit in the banks of Newark. Plaintiffs therefore ask that an issue be made up as to whether the alleged paper writing is the last will and testament of Peter Murphy, deceased, and that the same be set aside and that during the pendency of the action a receiver be appointed to take charge of and conduct the business of Peter Murphy and to have such control and make such disposition of moneys in bank, the grocery store and retail liquor store as is authorized by law. S. M. Winn and S. L. James are the attorneys for the plaintiffs.

EBEN HOLDEN

EDITION DE LUXE ILLUSTRATED BY C. H. WHITE.

Has Just Made Its Appearance—A Handsome Volume at Horney & Edmiston's Store.

Eben Holden, a Tale of the North Country, by Irving Bacheller, the Lathrop Publishing Company, Boston, in its latest edition, was received at Horney & Edmiston's this morning and put on sale there today. The work is considered the best that the talented author has done, and this edition has an especial interest to Newark people, from the fact that the twelve illustrations which embellish the book, are engravings from photographs of well known Newark people, taken by Clarence H. White, the noted artist.

Eben Holden is represented throughout by Mr. John Miles Jones, who lives about three miles north of Newark.

In infancy William Brown is represented by Maynard White, the little son of the artist, and Hope, the heroine, by Bernice Wintermute. These two after growing to young manhood and womanhood and to the estate of lovers, are pictured by photographs of James R. Fitzgibbon and Miss Anne Fulton.

Mrs. Caleb Brown in middle age is represented by Mrs. White, mother of the artist, and later in life and the story, by Mrs. Mary J. Lisle of Granville, mother of Miss Dora O. Lisle.

There is also a picture of the old Blizzard sugar camp, northeast of Newark and a fishing scene in which figure Ezra Belt the landscape gardener and Mr. Harry Scott.

The book is handsomely bound and well worth the price at which it sells, \$1.60.

Roosevelt and Wood.

Noting that while President Roosevelt is prepared to do some strenuous investigating, if the Republican organs can be believed, he is not disposed to recognize the charges against General Leonard Wood. It makes a difference who is the person to investigate. The country is far from being satisfied with the certificate of character given General Wood by the President. Some time ago, when the people were beginning to appreciate the emptiness of Wood's claims for preferment and hero worship, Mr. Roosevelt took occasion in a public speech to laud him as nearing the ideal of manhood and the American soldier. Since then new and graver allegations have been made. Newspapers and individuals who were formerly his admirers have not hesitated to declare that if the charges were false and Wood a man of honor he would unhesitatingly demand an investigation. On the other hand, he has dodged it, has put himself as far away from it as he well could. The President will hardly offend the public again by fulsome praises of an officer who is under distinct suspicion and yet seeks no vindication, although that person may continue his friend and further profit through his favoritism. Gen. Wood's reputation, with the aid of powerful patrons and accommodating correspondents, went up like a rocket, and in accordance with the proverbial saying has come down like the stick.

POSTOFFICE DEPARTMENT CORRUPTION AND THE REMEDY.

Indictments, prosecutions and convictions are what the people demand now in connection with the postoffice investigation. A colossal mine of crime has been exposed. Already some of the heads of the minor departments have been let out, and a number of clerks have been discharged. There is considerable evidence that "the men higher up" are as deep in the mud as several clerks discharged are in the mire, if not deeper, and that their carelessness and practice of "practical politics" in connection with the management of the departments is responsible for the present disgusting state of affairs. President Roosevelt, it is reported, has now taken personal charge of the investigation. Will he push the investigation rigidly, persistently and without favor? Implicated in this carnival of crime and corruption are some of the highest men in the department—men with political influence whose enmity the president will hardly see fit to incur just on the eve of a presidential election, when he, the chief investigator, is a candidate for president. President Roosevelt must not give us a half way investigation influenced one way or the other by political preference. What the people demand now is a thorough investigation with as much determination to indict, prosecute and convict the heads of the departments as the clerks who are likely to be used as scapegoats. Another thing—the president must urge another system, broader in its scope and more closely cemented to

prevent corruption. To obtain such another system he may work for the abolishment of "political preferment" in the establishment of a cleaner post-office department. So vast has the department become, the old political system won't work. It has been found to be rotten, loose and unsatisfactory. A \$25,000,000 rural free delivery service has been added and has been used as a medium of corruption. A new system is demanded for almost the entire postoffice department.

FROM THE FLOOD LANDS.

Telegrapher Describes Incident of Oregon Cloudburst--Heppner a Veritable Trap.
F. G. Hart, the telegraph operator for the Oregon Railway and Navigation company at Heppner, recently wrote for the New York World and sent by wire an account of a tragic moment in the flood in which he had a miraculous escape from death, taking with him four children. James Kernan, the station agent, and his wife, whose daughter (Katie) Hart had with him, would have escaped also had not Kernan stopped to call Portland in an effort to inform the outside world that Heppner was being overwhelmed with waters. Here is the account from Mr. Hart, dated Lexington, Ore.:
"I was working in the Oregon Railway and Navigation company's office at the time that the flood was coming down upon us. I was writing a letter to my parents, who live in Hilgard, Ore. I noticed that it was raining very hard, and, in company with Mr. Kernan, the station agent, his wife and his fifteen-year-old daughter, watched the creek. We did not realize that it was rising so fast until we heard a terrific roar. Then I called the attention of Mr. and Mrs. Kernan to the flood which was coming, with the water rolling over and over, picking up and crushing houses as though they were eggshells. I cried: 'My God! Isn't that awful? Come, let us run for the hills!'
"I took hold of the little daughter's hand and those of three other little children that ran into the station before I started. I rushed for the hills, Mr. Kernan and his wife following. Only by the help of Divine Providence did I succeed in getting the four children out on high ground, and as I gained the higher ground I turned to look and see how the best friend I ever had on earth was making it. The rapidly rising waters had caught him and his wife, and they were drowned before my very eyes. Neither tongue nor pen can describe the scene, and it seems beyond human minds to imagine the sight."
Heppner, Ore., as described by

Charles A. Taylor, the playwright, was a veritable trap for such a flood as the one which recently brought death to a large number of its population. Mr. Taylor has several friends there, and believes that many of them were victims of the cloudburst.
"The first time I went to Heppner," he said to a New York Evening Journal reporter, "was in November, 1901. The town was twenty-six miles from the main line and the trip there was slow and tedious. The railroad ran along Willow creek, which was a strong mountain stream in a deep valley.
"My company was the first that had been to Heppner in three years, and I never saw people so glad to see actors. There was no room for us in the small but well equipped hotel, but the landlord turned out enough guests to make us comfortable. We were treated royally on all sides and nothing seemed too good for us.
"The very thought of going to see a play seemed to thrill them, and that night the little opera house, which was used for charitable entertainments almost entirely, was packed to the doors. The same thing was true the next night, and Mr. Crawford, proprietor of the hotel, told me that every man, woman and child in the city who was not ill had seen the show.
"The wealth of the town was remarkable. There did not seem to be any poor people there. They seemed perfectly satisfied with one another and were willing to let the world outside progress without their aid. The hotel was about the only building in town that was up to date. The rest of the houses were built along the main street, backing on the creek.
"The town was in a pocket in the mountains. On every side were high hills, sloping down to the houses and being drained into the creek which proved so much too small when the cloudburst came on Sunday (June 14). The creek is like a raging torrent all the time. It runs into the Columbia river just above the falls and a few miles below Heppner."

NOVELTY IN ATHLETICS.
Telephone Used to Summon Yale Athletes and Prevent Fretting.
Yale has adopted an innovation in athletics that is likely to be copied at other universities, says the New York American and Journal. This is a telephone between the field and the dressing room. When the athletes are wanted for a certain event the clerk of the course simply telephones to the dressing room and the men wanted promptly appear.
Heretofore it has been customary to send messengers to the dressing room to summon the athletes. As the messengers did not care, as a rule, to overwork themselves, they would summon the competitors for several events at one time. This resulted in the field being filled with nervous athletes awaiting their turn to compete.
By the new system the athletes are enabled to remain on their couches until a minute or two before their race, with the result that they come to the mark in much better condition so far as the nerves are concerned.

Sahara Autos Supplant Camels.
A party of Americans at Cairo, Egypt, has arranged for a trip across the Sahara on the desert auto invented by George Winter and Jesse Ellis, says the St. Louis Globe-Democrat. The machine has specially constructed wheels capable of coping with the conditions of the soil, each auto carrying two sets, one for loose sand and another for a heavy road. The Sahara auto engaged by the American party is an omnibus capable of accommodating forty people. It has a velocity of from three to four miles an hour—little enough, but it beats the camel.

SPEEDWAY FOR AUTOS
Great Steel Road Planned For Long Island.
OVER ONE HUNDRED MILES LONG.
Double Track Highway to Start From Long Island City to Montauk Point and Be Inclosed by Wire Fences and Hedges—Would Be Forty Feet Wide.
A motorway across the backbone of Long Island, extending from Long Island City to Montauk Point, an uninterrupted double trackway of steel plates for 112 miles, free from dust and mud, lacking in sunlight glare and reflected heat and like driving over a fine lawn!
That is the enticing prospect which General Roy Stone has outlined at the instance of officials of the National Association of Automobile Manufacturers and the American Automobile association, says the New York American and Journal.
A year ago there was much talk concerning a fifty mile speedway for motor driven vehicles on Long Island, and the disappearance of this idea caused General Stone, who is recognized as one of the leading experts of the country in highway construction, to prepare plans for an even greater stretch of road than that in which members of the Automobile Club of America were the prime movers.
A quick route from New York to Newport is what one enthusiast declared when the proposition was made known to him, and this phase of the motorway may attract aid from influential sources.
The suggested route starts from the landing of Blackwell's island bridge in Long Island City, thence running between Jackson avenue and the Long Island railroad as a sunken inclosed road and continuing nearly parallel to the same avenue, following if practicable the right of way of the abandoned Oliver Charlick railway to the Flushing meadows, passing beneath the North Shore railroad and the Corona electric road at the point where they descend upon the meadows; thence across the meadows along the line of the old Long Island Central railroad and following that line through its long summit, cutting to Creedmoor and Floral Park, touching there Belmont's new race course; thence across Hempstead plains and along the southern foot of the Bethpage, Half Hollow, Brentwood, Ronkonkoma, Coram and Dix's hills, keeping the middle line of the island between the heights and the plain as far as the heights extend and then straight through the level pine woods to Good Ground, and so on to Montauk.
The plans for the motorway call for a double track of steel plates, with slight indentations, each track about five feet between centers, with ten feet space between the tracks and the same outside, making the whole roadway forty feet wide. Outside of this would be hedges and a wire netting fence to keep out animals and beyond that a row of trees on each side, all highways to be carried over the motorway by raising them perhaps five feet and depressing the motorway to the same extent.
The entrance to the motorway would be by gates from the important highways, and those would be the toll-gates. Between midnight and morning the road could be used for motor freight vehicles for farm and garden traffic. When used for formal races all other traffic could be shut off.
It is estimated that the road complete could be constructed for \$15,000 per mile, \$1,600,000 for the 112 miles. The cost of operation would be the taking of tolls and the care of the grass and hedges, little or no repairs being required for many years.

New Slang Word.
It is reported by the Greeley Republican that loco weed is unusually abundant on the prairies this year. Locoweed is a plant which sets animals crazy and eventually causes their death if its use is continued, says the Kansas City Journal. But the peculiar thing about it is the manner in which it upsets the popular idea that animals have an unerring instinct which teaches them to avoid all foods which are harmful. When a horse or cow has once tasted loco it will wander over the prairies hunting for more of it and refusing to eat grass or any other food. When an animal has acquired the loco habit it quickly becomes emaciated, and often it runs amuck like a man made crazy by the use of morphine or whisky. On the prairie the word "loco" is applied to men who are intoxicated or who have lost their minds, and it has moved on to the east, where it is doubtful if many know its origin.

A Text With Each Drink.
Quoting Scriptures by the chapter, singing psalms and exhorting his patrons to walk in the straight and narrow path from early morning till late at night keep Charles Booth, a saloon keeper of Atlanta, and his bartender busy, says a special dispatch from Tipton, Ind., to the Chicago Inter Ocean. Booth, who is a wealthy man of Tipton and a large stockholder in the tin plate mill, has become much excited over the determined fight of the temperance element to drive out all saloons in the town. He stands behind his bar and quotes some verse in the Bible applicable to every patron who enters his place. The Anti-saloon league of the state has concentrated its forces in Tipton county, and the members say they will close every saloon in the county in a few months.

FOUND DEAD

WAS ISAAC MANTONYA NEAR FREMONT, IOWA.

Former Licking County Man Died Suddenly from Heart Trouble—A Sketch of His Life.

Wednesday's Advocate briefly announced the sudden death of Isaac Mantonya, a former Licking county man in Iowa. The following is taken from the Fremont, Ia., Gazette of June 18, a copy of which has just been received:

Isaac Mantonya, a highly respected citizen of Fremont, was found dead in the Oliver Helm timber north of A. Swanstrom's, last Saturday evening about 5 o'clock. He left his home on Thursday afternoon telling the folks with whom he lived that he was going down to Frank Knott's. Nothing much was thought about his absence that night, but his not returning by noon Friday occasioned the McVey family, with whom he resided, some uneasiness, and a search was immediately instituted. It was learned that he had been at the Knott home the previous afternoon but had started for Fremont about 4 o'clock, going across lots to lessen the distance. Further search was made, but it was not until late Saturday afternoon that his lifeless body was accidentally discovered by Aben Swanstrom, who was starting into the timber to get up the cows. Word was immediately sent to town and the remains were brought in and taken to the undertaking rooms of M. B. Lee & Son, where they were prepared for burial.

When found Mr. Mantonya was lying on his face, both hands grasping his cane and clutched together on his breast. His head and face were bruised by the fall, and this, together with the position of his hands, clearly indicate that he was dead before he fell. He was subject to heart trouble, and this was without doubt the cause of his death, as no marks of violence were found on his person to indicate foul play and his watch and money were in his pockets.

Isaac Mantonya was born in Licking county, Ohio, December 28, 1824, where he grew to manhood and was married to Miss Susanna Tharp, December 25, 1845. There were born to them from this union nine children three sons and six daughters, of whom four daughters survive him. He with his family moved to Fulton county, Ill., in 1847, and afterward removed to Neb., and 1890, he with his family removed to Mahaska county, Iowa, locating on a farm near Fremont and in 1891 he with his companion, located in Fremont, where his companion died September 30, 1899. He has since the death of his wife made his home most of the time in Fremont.

He died very unexpectedly and away from his home, June 11, 1903, at the age of 78 years, 5 months and 13 days. He leaves four daughters and many other friends to mourn their loss. His children are: Mrs. Laura Wilson, Fairfield; Mrs. Amanda Spry, Martinsburg; Mrs. Mollie Honeycutt, Canton, Ill.; Mrs. Hattie Couch, Exeter, Neb. He was a kind companion and father, a good citizen and neighbor and will be much missed.

The funeral services were held at 3 o'clock, conducted by Elder Barr and assisted by Elder Spencer, after which his remains were followed by mourning and sympathizing friends to the Fremont cemetery and there laid to rest.

Epworth League.

The Epworth League entertainment given in the town hall at Hebron Wednesday night was a grand success in every particular. Three young people from Newark took part in the most interesting features of the program. Charles Kern played a solo on the violin and sang a song entitled 'Dreaming' which made a great hit, and brought down the house. Robert Kern and Miss Eva Kern rendered some good songs. Miss Kern played the piano during the exercises. Robert Kern was the impersonator in several recitals. The young people are becoming noted musicians, rendered their parts well and received the praise of the audience.

Delightful Outing

One of the most pleasant excursions of the season was the outing of Miss Bertha Watkins' art class on Wednesday. About fifty of her pupils boarded the 9:15 Granville car and were soon safely carried to her elegant and hospitable country home, known as

Cedar Grove. The day was spent in games and the delights of youth when released in the country. Dinner was served on the lawn and the 8 o'clock car found them reluctant to bid their teacher good bye. Those present were: Misses Kirby, Morgan, Eichhorn, Ino Bailey, Mary Summers, Fred Sliester, the two Misses Sliester, Claud Swartz, Wayne Overturf, John and Paul Sachs, Morris Webber, Harry Rosebrough, Carl Schaller, Lawrence McWilliams, Bertram Smith, Helen Pigg, Mary Harrigan, Gladys Emerson, Lillian Rugg, Ethel Franklin, Anna Hoffer, Mary Bremigan, Mamie Pigg, Bessie Smith, Genevieve Smith, Marguerite Kuster, Marie Gilbert, Goldie Daily, Irene Henthorn, Mabel Maneeley, Grace Jones, Nellie Jones, Verna Harding, Lillian Keller, Magdalene McWilliams, Dana Wallace, Sarah Walker, Ethel Hobart, of Granville, Spray Douce and Willie Cooper. They were chaperoned by Miss Watkins.

ANNIVERSARY

OF REV. AND MRS. L. C. SPARKS WAS REMEMBERED.

Pastor Presented With Fine Upholstered Couch at First M. E. Church Wednesday Night.

A most pleasant hour was spent in the First Methodist church Wednesday evening, after the regular mid-week prayer meeting, by those who had attended the meeting and others who came to be present at what followed.

When all had assembled Mr. A. S. Stephan called the pastor, Rev. L. C. Sparks and in a clever speech reminded him that on the 24th day of June, 27 years ago, he had taken unto himself the wife, who has since been his companion and helpmate.

In honor of the anniversary of this event and as a token of the high esteem in which he and his wife are held by the members of the church and congregation, Mr. Stephan in their behalf presented to Mr. and Mrs. Sparks a handsome upholstered couch, while to Mrs. Sparks in addition was given a large bouquet of beautiful flowers.

Mr. Sparks was taken completely by surprise but in a feeling manner thanked the donors for their generous gift and the kindly feeling which prompted the giving.

There is no pastor in Newark who is held in higher esteem or with more tender feeling of regard than is Rev. Mr. Sparks by his congregation, and his estimable wife shares with him this pleasant and agreeable condition of affairs.

The event Wednesday night was one which will long be remembered with pleasant memories by all who in any way participated in it.

It was such a constant ache that I had little chance to forget it. I went to Crayton's drug store and got Doan's Kidney Pills. This was not the first medicine I had used in trying to get rid of my trouble, but I claim it is the first that ever gave me quick and lasting relief, for the backache entirely disappeared."

FEED WIRE

CARRYING HIGH VOLTAGE INTO NEWARK.

Objections Raised to the Line—Superintendent of Overhead Construction in the City.

There have been complaints lodged with the Board of Public Service by property owners on Pine street, the chief of the fire department signal system, the Newark Telephone Company, and others interested, that the proposed new feed wire to be brought into Newark by the Columbus, Buckeye Lake and Newark Traction company from the central power house at Hebron to the new sub-station at the west end of Church street will be very dangerous.

The new wire is to carry a voltage of 13,500 into the transformers at the substation, where it will be reduced, and distributed over the lines as it is needed. There are now four feed wires, and the one wire proposed will do away with three of these.

C. S. Courson of Springfield, superintendent of overhead construction for the Appleyard people, was in conference with the Board of Public Service Wednesday and Thursday, explaining the advantages of the new wire, and showing that as it was proposed to string it, there would not be more, but less danger than was supposed.

The new wire will be heavily insulated, and according to Mr. Courson, will be perfectly safe. He says that it will be less dangerous than the bare trolley wires which carry 550 volts and are on practically all the principal streets of the town. Mr. Courson argues that a cross with a 550 volt wire is as effectively dangerous as with a 13,500 volt wire. Either would be fatal to life or destructive to property.

At the solicitation of the Appleyard superintendent, John P. Lamb, president of the Newark Board of Public Service, went to Columbus Wednesday to see the wire there which is not insulated and carries a 23,000 voltage. There were no complaints about this wire, but Mr. Lamb said that he found the city officials of Columbus did not know of the wire, nor its voltage.

Mr. Courson said that he had made satisfactory arrangements with Manager C. E. Hollander of the Newark Telephone company in regard to the new wire, which would be put above the wires of the telephone company.

The Board of Public Safety has the power to place conditions under which the wire can be strung into Newark, and at a session today this will be done.

Prof. W. G. Tight.

Professor W. G. Tight, formerly of Denkon University, now President of the University of New Mexico, left New York June 16, in company with Miss Annie S. Peck, the noted mountain climber, and they will make an attempt to scale the summit of Mt. Sorata in Bolivia, South America, which is said to be the highest mountain in the world, about 25,000 feet above the sea.

Miss Peck will confine her attention to barometric observations and photographic work while Prof. Tight will look after the geology, topography, fauna flora, and other things.

In a column article Wednesday the Advocate gave the details of the trip and interesting incidents connected with the expedition.

GAS BY METER

AT LOW PRICE OF

18c per 1000 Cubic ft.

Newark has been paying a high price for gas for several years, when they take into consideration the price \$2.33 a month for seven months for a heating stove and about the same price for a coal stove. At this flat rate the people of Newark are paying more for gas than any other town in the country.

We last year put Chillicothe on meter under the same objections that the citizens of Newark have been objecting to, for several years, as the people imagined that meter gas was very expensive, but we are positive when we say that Chillicothe and other towns would not return to the flat rate system at any price. We cite you this town for reference, and the price at which we offer the gas to you is way below that of any other in the country, as Chillicothe pays 27 cents, and the rate of 15 cents per 1,000 cubic feet is offered Newark town is not a single cent family in the whole town that burns gas today, but what can be offered to burn gas by meter is at 18c flat rate. You will get better service and in one year's time you will say that meters are a blessing. Furnaces can use gas at 18 cents, which is cheaper than coal. Buy the proper appliances and save the price of fuel in a very short time.

People wishing to change to a meter can do so and get the benefit of the warm months, as gas bills by meter are very small in the summer. After October 1st, the company will insist on the use of meters.

MONEY

NEEDED FOR THE OUTING TO BE GIVEN

By Salvation Army to the Mothers and Children in July—\$20 Has Been Received.

Capt. Runcie of the Salvation Army says that he has received two \$25 subscriptions, four \$5 donations and other cash gifts amounting in all to \$80 as a nucleus of a fund to be used for the children's outing to be held next month at Idlewild park. It is possible that the date may be changed from July 15th to July 21st, on account of other attractions in the city. The King's Daughters and Truant Officer Jones will provide Capt. Runcie with a list of names and personal invitations will be given to mothers and children.

A free ride to and from Idlewild park is promised; admission will be free and each child will be given two rides on the merry-go-round, to hear a band concert or two, have both dinner and supper, with ice cream, cake, peanuts, candy, bananas, oranges, etc. thrown in. The Salvationists intend to make it a day of pleasure for those whose lives seldom see pleasure of any sort. They are going to let little children who have never had a glimpse of the park and who seldom if ever have a square meal enjoy themselves thoroughly for a whole day. The effort that Capt. Runcie and his army are making deserves the cordial and substantial support of all. It is hoped that a fund of \$250 will be secured. No money will be wasted. If the amount received is greater than is needed for the outing the surplus will be used for regular Salvation Army work.

W. D. Ott, who for four years was associated with Capt. Runcie, arrived Thursday afternoon to assist in the work. Mr. Ott has been singing associated with Capt. Runcie arrived in a Cincinnati theatre but he has abandoned that work to return to the Salvation Army. As Capt. Runcie will go to Cleveland Saturday to attend the dedication of the new \$100,000 Salvation Army citadel, Mr. Ott will be in charge of Saturday and Sunday's services.

True and Unfailing Health For Suffering Women.

Paine's Celery Compound

The World's Medicine For The Cure of Female Troubles.

A large share of the evils and sufferings which women are liable to, result from special female weaknesses and diseases. From the girl entering womanhood to the woman who arrives at the Grand Climacteric or "change of life," there are troubles, ailments and irregularities—too often borne in silence—which undermine the health and result in disease. Where such conditions exist, Heaven help the poor sufferers to fully realize their perils and dangers!

It is well known that ordinary medical treatment too often fails to build up the delicate nervous system of women.

The Piccolo Midgets are a drawing card and every one who has seen them has recommended the attraction to their friends, and the audiences grow at every performance. Every one should send the children Saturday afternoon to see the wonderful little tots work for it is a novelty they may never have an opportunity of seeing again. WEDDING

Of Miss Grace Tilton and Wm. E. Thompson of Minnesota Wednesday Night.

Martinsburg, O., June 25—One of the prettiest weddings that ever occurred in this community was that of Miss Grace, daughter of Mr. and Mrs. N. H. Tilton, and Mr. Wm. E. Thompson, of Hastings, Minn.

The ceremony was performed on Wednesday evening in the Presbyterian church, by Rev. S. E. Idleman of Galion. The church was artistically decorated with many palms, potted plants and cut flowers.

At 8 o'clock the bridal party entered the church to the strains of Lohengrin's wedding march played by Mr. Earle Tilton of Marysville on the violin accompanied by Miss Lena Hughes of Martinsburg. Following the ushers, Mr. Will Tilton, brother of the bride, Mr. Ralph Whitford of Columbus, Mr. Will Black and Mr. Frank Kirby of Mt. Vernon, came the four bridesmaids, Miss Clara Tilton, sister of the bride, Miss Carrie Haskins of Chicago, Miss Myrtle Painter of Minneapolis and Miss Laura Smith of Columbus. They were all gowned alike in dainty creation of pink and were softly singing the Lohengrin bridal chorus.

Next came the ring bearer, little Louise Painter in a dainty white dress and carrying the ring in a white hilly chalice. Last of all came the charming bride on the arm of her father. She wore a beautiful gown of white liberty silk and all over lace, carrying on her arm bride's roses. The bride was met at the altar by the groom and his best man, Mr. Ira Painter of Sidney.

The Episcopal ring service was used during which Schuman's Traumerer was softly played. The bridal party left the church to the strains of Mendelssohn's wedding march after which a reception was held at the Tilton home.

The house was decorated with field daisies, ferns and palms, the color scheme throughout being pink and green, blending artistically in many pleasing effects.

The bride's table was daintily arranged, ropes of smilax being twined from the chandelier to the corners and festooned around the edges of the table. A large bouquet, of carnations formed a pleasing centerpiece. A dainty luncheon was served after which the happy couple left for a short wedding trip. They will be at home after September, at the Groveland apartments, Minneapolis, Minn.

Among the reception guests were: Mr. and Mrs. C. V. Trott, Mr. and Mrs. A. R. Stipe, Mr. Will Black, Mr. Frank Kirby, Miss Mary Ewart, Miss Edith Ewart, Mr. and Mrs. Leander Hayes, Miss Bertha Hayes, Mr. Howard Hayes of Mt. Vernon; Miss Nellie Edwards, Miss Myrtle Painter, Carl and Louise Painter of Minneapolis; Mr. and Mrs. J. W. Tilton, Mr. Earle Tilton of Marysville; Rev. S. E. Idleman, of Galion; Mr. and Mrs. W. E. Grievances.
Every day in the year the average man has a grievance. On the last day in the year he has probably forgotten the other 364.

Three hundred and sixty-five days in the year he has poured his particular grievance into the ears of some poor devil who has troubles of his own.

What's the use of it? Don't kick. Let the other fellow do the kicking—and give him cause.

Don't bluff. Some day fate is going to deal you a good hand.—Pittsburg Dispatch.

Pistol Worse Than Sword.
Damocles was viewing the suspended sword.

"It doesn't seem to trouble you," observed Dionysius.

"No," returned his guest. "Now, if it was only a pistol you didn't know was loaded!"

Weakened by the mere thought, he hastily turned to the butter for strength.—New York Tribune.

Over His Patient's Head.
When the doctor, who forgot what kind of medicine his patient was taking, asked, "Was it a fluid medication I prescribed for you the last time?" the puzzled German patient answered:

"I don't know vot id vos. You said I shud take fine drobs dree dimes a day in water."—New York Press.

Just a Hint.
"How appropriately the words are arranged here," she remarked as she idly turned the pages of the dictionary.

"How do you mean?" inquired Mr. Slove-Polk.

"Why, for instance, 'love' comes just a little before 'matrimony.'"

Education is so general in Denmark and Sweden that they are the only European countries in which all the military conscripts can read and write.

Startling Evidence.
Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled.

A recent expression from T. J. McFarland, Bentonville, Va., serves as example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began to taking Dr. King's New Discovery, and a few bottles wholly cured me."

"Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by Frank D. Hall, druggist. Regular sizes 50c and \$1.00.

Franks of Students.
A book by Captain Markham of the British army tells of experiences in Westminster school, London, something over half a century ago. He describes the "handings" of those days. The back of the hand was extended, while the master, standing behind, smote it with a rod, which "curled over a little" and left a cut, and the culprit, facing the school, observed the etiquette of the occasion by wearing an expression of "scornful amusement."

Captain Markham also describes "tanning," which was administered with the butt end of a rod upon the backs of the boys' legs. He recalls the code of honor, which was merciless to the boy who broke his word or allowed another to suffer for his offense, but permitted "any amount of humping of a master."

When disinclined for school you said, "I don't feel very well, sir," and before the master inspected your tongue you gave "the upper surface a hard pressure with your upper teeth, and out came a tongue white enough to satisfy any doctor."

Underground Waters.
The earth contains an abundance of water, even in places like some of our great western plateaus where the surface is comparatively arid. The greatest depth at which underground water can exist is estimated to be about six miles. Below that, it is believed, the cavities and pores of the rock are completely closed

PERFECT ASSIMILATION

Some people eat heartily, even ravenously, yet nothing seems to "stick to their ribs". Others don't eat much, but assimilate all nutriment in the food and get fat. We have letters from people who say that

Dr. Caldwell's Syrup Pepsin

makes them fat. It doesn't. It simply gets their digestive organs in shape to take the nutriment out of the foods which they eat. It also acts as a gentle laxative and tonic. Please try it.

A. C. Jones, of Hortonsville, Ind., writes: "I can say for Dr. Caldwell's Syrup Pepsin that it is one of the best medicines I ever have taken; in just sixty days after I began to take your medicine, I had gained 30 pounds in weight, felt like a new man and I can highly recommend it to any one who is troubled with indigestion or dyspepsia."

VISITORS

Again Won from Local Team at Idlewild Park by Score of 4 to 3.
A Good Game.

The Springfield team defeated the Idlewild players for the second time in two days, in a game that was featureless, yet quickly played Wednesday afternoon.

Scott started to pitch for the home team, but was taken out after the visitors had scored four runs in three innings. Walser, who took his place, did glib edged work and held the Springfield batters safe.

A home run by Gilson over the left fence and a sensational catch by Poling in the ninth were the features of the game. Peterson also did great work for the visitors, while Walser's pitching was the only feature of the home team's play. Score:

Springfield . . . 2 1 1 0 0 0 0 4

Philpot With All Collegians.

The All Collegians, a team that has been gotten together by Manager Lloyd of Delaware, will be in Newark for two games with the Idlewild team next Tuesday and Wednesday, June 30 and July 1. Manager Lloyd has taken the star players from the various college teams of 1930, including Ohio State, Ohio Wesleyan, Denison, Case, Kenyon, Wooster and others, and the team thus formed puts up a great game. Philpot, Denison's star slaban is with the All Collegians, and is an announced to pitch one of the games against Idlewild. The great college pitcher has many friends and admirers who will no doubt be in attendance to see him pitch against the Newark team.

Urbana Series This Week.

The Urbana team, probably the strongest aggregation of semi-professionals in Ohio, will open a three game series at Idlewild Park Friday, with the Idlewild team, and three great games may be expected. The home team is playing good ball and expects to take at least two out of three from the Urbana club. Should they accomplish this feat they will have done more than their most ardent admirers could hope for. The game Sunday will be called later than has been the custom heretofore, so as to allow those who go to the Casino to also witness the ball game. Urbana Friday, Saturday and Sunday.

NOVEL BOAT CONTROLLER.

Device to Direct a Vessel's Movements From Land.

Charles Alden of Dorchester, Mass., recently completed a series of experiments by which he is enabled to control all the movements of a boat in midstream while sitting on the bank, says a Boston special to the New York Times.

The device used is similar to the wireless telegraph. The scene of his operations is at Milton, on the Neponset river. Here a long pole wound with two large coils of wire is set in the ground near to an eight volt battery, generator and a transmitter. The boat, which is seven feet long, is fitted with an elaborate receiving apparatus.

By means of the transmitter on the shore the inventor sends wireless impulses to the boat and is able to make it weigh anchor, cast off, go ahead, back water and perform all other movements of a real vessel.

Alden states that it will be easy to put such an apparatus into operation in a large boat, the only thing necessary being to direct and send the impulse from the transmitter on shore to the receiver on the boat.

The inventor is now at work on a model of a lifeboat to be similarly managed, and he believes the device can be put into practice on big boats.

Sentiment Versus Fact.

That the advance preparation of speeches will not always conform to circumstances was made evident during a flag raising at a public school. The young orator had been speaking for several minutes when he advanced to the front of the platform, raised his hand with a dramatic gesture to the flag on the staff above him and shouted:

"See you flag throwing its protecting folds to the breeze of freedom!"

It was a pretty sentiment, but the "breeze" didn't bear out the picture. The flag, to which all eyes were immediately turned, hung as limp as if it had been dipped in water.

Improvement in the St. Louis Catholic Church at Gallipolis—What a Paper Says.

The Gallipolis, Ohio, Tribune has the following to say about the improvement of St. Louis Catholic church, the interior of which has been transformed into a beautiful little chapel.

The room has been enlarged, the small school rooms in the back being taken in, making the church much longer. A brass railing divides the chancel from the church proper. The altar has been remodeled and as it stands now, adorned with massive brass candle sticks, handsome vases, and surmounted by a large and well executed statue of St. Louis IX. of France.

Many beautiful statues have been donated among which is one of the Virgin Mary after Lourde and one of the sacred Christ are the most noticeable. A particularly beautiful one of the St. Joseph and the child was given by the patients at the O. H. E.

The chancel is carpeted in red and this rich color contrasts beautifully with the white and brass of the altar and railing.

The walls are papered in imitation of stucco and massive pillars, and the old windows have been replaced by stained glass, memorial ones, which enhance the beauty of the place, both inside and out. The church is brilliantly lighted by many electric lights and on the whole the effect produced is so far different from the former that one could scarce recognize it was the same place.

Father Kessler deserves great praise for his untiring and faithful work and it is only fair to say that although the church numerically or financially considered, is not so large as it has been, there have been more improvements made during the last year than ever before.
